

End of Day (EOD) Report

Date: 23 July 2026

Accomplishments

- Completed Linux user administration and basic Ansible configuration tasks of KodeKloud.
- Started the 100 days of Cloud track of KodeKloud and completed tasks of day 1.
- Generated and configured SSH keys for secure access in Azure and AWS environments.

Challenges

- Few cli syntax errors and directory setup issues which were resolved.

Next Steps

- Continue progressing through the upcoming tasks.

Regards,

Mohsin Rasul
